

On This Planet

One day far in outer space, a planet called Earth began a race, which was created and put in its place, On Earth soon the ground began to shake.

On this Planet it's called an Earthquake, but this would sometimes happen deep below the sae. On this Planet it's called an Earthquake but below the sea it's called a tsunami.

When two blocks of rock or two plates come together, when this happens a city's gone forever.
