Lyrics:

A seismometer, the plates are gonna move a meter.

This earthquake, is gonna spill my milkshake. (X2)

2011, Japan suffered from an earthquake.

Creating a Tsunami, which caused deaths and a failed economy.

The buildings fell, and the air had sea smell

16,000 deaths, with a magnitude of 9.1

A seismometer, the plates are gonna move a meter.

There's an earthquake, I spilled my milkshake. (X2)

Seismograph, we need a security staff.

There are seismic waves, which can shake houses and caves.

I can feel the ground shaking

And the plates breaking

A seismometer, the plates are gonna move a metre.

This earthquake, is gonna spill my milkshake. (X2)
